

## **PXIL SUCCESSFULLY CONDUCTS SEVENTH REC TRADING SESSION**

Power Exchange India Limited (PXIL) conducted its Renewable Energy Certificate (REC) trading session for the month of September on 28th September, 2011. Several members including obligated entities like the distribution licensees, captive power plants and open access users participated in this session. The total orders received for Non-Solar Certificates were 40,415 comprising 30,853 buy bids and 9,562 sell bids. From the total bids received for the trade, 4,977 certificates were cleared today. REC market on the Exchanges has witnessed growing interest over the past few months. The REC bids at PXIL have picked up from 598 Non Solar Certificates in March '11 to 40,415 Non Solar Certificates in September '11 session.

Central Electricity Regulatory Commission (CERC) had come up with REC mechanism to incentivize the RE generators through a market based mechanism of trading and promoting newer investments into the sector. While the primary goal of the REC is to address the needs of the compliance market, it also serves as a useful tool for meeting the 'green electricity' needs of the voluntary market. Companies have started purchasing RECs as part of their corporate social responsibility.

Trading in RECs which started with a slow response has gained momentum within a few months. PXIL, in its endeavor to offer easy access, transparent and fully electronic market place, had developed a robust and user friendly platform to trade on RECs. PXIL had launched its platform in March 30, 2011 to facilitate trade of these certificates and captured 70% of the market share in the first trade itself.

### **Power Exchange India Limited**

Power Exchange India Limited (PXIL) is India's first institutionally promoted Power Exchange that provides innovative and credible solutions to transform the Indian Power Markets. It is joint venture of National Stock Exchange (NSE) and National Commodity & Derivatives Exchange (NCDEX).
